## Ghostwriting Services and Rates

### What's Included

My ghostwriting project fee covers **partial or full creation of the manuscript itself** (i.e., outlining, structural development, original writing in the client's voice, modifying existing draft content), including **one revision pass**, plus up to **10 brief clarification emails related directly to the manuscript** (generally 150–250 words or 1–3 focused questions per message).

If you'd like additional virtual meetings, in-depth correspondence, or research beyond the scope of creating the manuscript, those services are available at **\$60/hour**.
